

# MPUMALANGA BULLDOG

## CLUB

### QUALIFYING SHOW

**SATURDAY, 22 FEBRUARY 2020**

**GOLDFIELDS SHOW GROUNDS, BEDFORDVIEW**

**JUDGE: Mrs. Brenda Degenhardt**

**Club's Officers:**

**Chairman: Philip Le Roux - 083 325 6393**

**Vice Chairman: Rina v/d Westhuizen – 084 585 5657**

**Secretary: Brittany v/d Westhuizen – 079 433 0608**

**Treasurer: Riana Conradie – 083 335 0608**

## **Message from the Chairman**

Dear Exhibitors, Members and Friends

On behalf of the committee of the Mpumalanga Bulldog Club, it is my pleasure to welcome you to the

Club's Qualifying show, held on 22 February 2020 at the Goldfields Show grounds.

A special welcome to our Judge, Ring Steward and Show Secretary as well as our KUSA Rep. Thank you all for accepting this appointment.

Judge: Brenda Degenhardt

Ring Steward: Vanessa Nicolau

Show Secretary: Melanie Nicolau

KUSA Rep: Phil Reany

We would like to thank the following sponsors. Without your donations, the Show wouldn't have been such a success:

- Our sponsor Olympic dog food, a very big thank you for your generous donation of Dog food.
- Westberg Kennels for the donation of the Rosettes and prizes.
- Riana and Johan for supplying the gorgeous caps.
- A huge thank you goes to Bravecto for their sponsorship.
- Thanks to Rant en dal Animal Hospital for sponsoring the Dog Breeding Book written by DR. Kurt de Kramer.
- Corrie for sponsoring the class winner boards and
- Thanks to those persons who made a monetary contribution towards the cost of running this show.

To all the Exhibitors just have fun and enjoy the day with us and we also hope to see you and more bulldog Exhibitors at our next show!

\*\*NB After the show we will have our AGM and all members are invited to please join us.

Sincerely

Philip Le Roux

TO BE HELD ON SATURDAY **22 Feb 2020**

**VENUE – Goldfields Showgrounds, Bedfordview**

**Entries close Thursday, 14 February 2020**

<p><b>JUDGING COMMENCE - 9:00 <u>A.M. SHARP.</u></b></p>	<p align="center"><b><u>Vet on Call -</u></b> Bedfordview Veterinary Hospital 011 616 4088/3245</p>

*A Breed Standard is the guideline which describes the ideal characteristics, temperament and appearance of a breed and ensures that the breed is fit for function with soundness essential. Breeders and judges should at all times be mindful of features which could be detrimental in any way to the health, welfare or soundness of this breed.*

#### **GENERAL APPEARANCE**

Smooth-coated, fairly thick set, rather low in stature, broad, powerful and compact. Head, fairly large in proportion to size but no point so much in excess of others as to destroy the general symmetry, or make the dog appear deformed, or interfere with its powers of motion. Face relatively short, muzzle broad, blunt and inclined upwards although not excessively so. Dogs showing respiratory distress highly undesirable. Body fairly short, well knit, limbs stout, well-muscled and in hard condition with no tendency towards obesity. Hindquarters high and strong. Bitches not so grand or well developed as dogs.

#### **CHARACTERISTICS**

Conveys impression of determination, strength and activity.

#### **TEMPERAMENT**

Alert, bold, loyal, dependable, courageous, fierce in appearance, but possessed of AFFECTIONATE NATURE.

#### **HEAD AND SKULL**

Skull relatively large in circumference. Viewed from front appears high from corner of lower jaw to apex of skull; also broad and square. Cheeks well rounded and extended sideways beyond eyes. Viewed from side, head appears very high and moderately short from back to point of nose. Forehead flat with skin on and about head slightly loose and finely wrinkled without excess, neither prominent nor overhanging face. From defined stop, a furrow extending to middle of skull being traceable to apex. Face from front of cheek bone to nose, relatively short, skin may be slightly wrinkled. Muzzle short, broad, turned upwards and deep from corner of eye to corner of mouth. Nose and nostrils large, broad and black, under no circumstances liver colour, red or brown. Distance from inner corner of eye (or from centre of stop between eyes) to extreme tip of nose should not be less than distance from tip of the nose to edge of the underlip. Nostrils large wide and open, with well-defined vertical straight line between. Flews (chops) thick, broad and deep, covering lower jaws at sides, but joining underlip in front. Teeth not visible. Jaws broad, strong and square, lower jaw slightly projecting in front of upper with moderate turn up. Over nose wrinkle, if present, whole or broken, must never adversely affect or obscure eyes or nose. Pinched nostrils and heavy over nose roll are unacceptable and should be heavily penalised. Viewed from front, the various

properties of the face must be equally balanced on either side of an imaginary line down centre.

#### **EYES**

Seen from front, situated low down in skull, well away from ears. Eyes and stop in same straight line, at right angles to furrow. Wide apart, but outer corners within the outline of cheeks. Round, of moderate size, neither sunken nor prominent, in colour very dark – almost black – showing no white when looking directly forward. Free from obvious eye problems.

#### **EARS**

Set high – i.e. front edge of each ear (as viewed from front) joins outline of skull at top corner of such outline, so as to place them as wide apart, as high and as far from eyes as possible. Small and thin. 'Rose ear' correct, i.e. folding inwards back, upper or front inner edge curving outwards and backwards, showing part of inside of burr.

#### **MOUTH**

Jaws broad and square with six small front teeth between canines in an even row. Canines wide apart. Teeth large and strong, not seen when mouth closed. When viewed from front under jaw directly under upper jaw and parallel.

#### **NECK**

Moderate in length, thick, deep and strong. Well arched at back, with some loose, skin about throat, forming slight dewlap on each side.

#### **FOREQUARTERS**

Shoulders broad, sloping and deep, very powerful and muscular giving appearance of being 'tacked on' body. Brisket round and deep. Well let down between forelegs. Ribs not flat-sided, but well rounded. Forelegs very stout and strong, well developed; set wide apart, thick, muscular and straight, bones of legs large and straight, not bandy nor curved and short in proportion to hindlegs, but not so short as to make back appear long, or detract from dog's activity. Elbows low and standing well away from ribs. Pasterns short, straight and strong.

#### **BODY**

Chest wide, prominent and deep. Back short, strong, broad at shoulders. Slight fall to back close behind shoulders (lowest part) whence spine should rise to loins (top higher than top of shoulder), curving again more suddenly to tail, forming slight arch – a distinctive characteristic of breed. Body well ribbed up behind with belly tucked up and not pendulous.

#### **HINDQUARTERS**

Legs large and muscular, slightly longer in proportion than forelegs. Hocks slightly bent, well let down; legs long and muscular from loins to hock. Stifles turned very slightly outwards away from body.

#### **FEET**

Fore, straight and turning very slightly outward; of medium size and moderately round. Hind, round and compact. Toes compact and thick, well split up, making knuckles prominent and high.

### **TAIL**

Set on low, jutting out rather straight and then turning downwards. Round, smooth and devoid of fringe or coarse hair. Moderate in length – rather short than long – thick at root, tapering quickly to a fine point. Downward carriage (not having a decided upward curve at end) and never carried above back.

Lack of tail, inverted or extremely tight tails are undesirable.

### **GAIT/MOVEMENT**

Appearing to walk with short, quick steps on tips of toes, hind feet not lifted high, appearing to skim ground, running with one or other shoulder rather advanced. Soundness of movement of the utmost importance.

### **COAT**

Fine texture, short, close and smooth (hard only from shortness and closeness, not wiry).

### **COLOUR**

Whole or smut, (i.e. whole colour with black mask or muzzle). Only whole colours (which should be brilliant and pure of their sort) viz., brindles, reds with their various shades, fawns, fallows etc., white and pied (i.e. combination of white with any of the foregoing colours). Dudley, black and black with tan highly undesirable.

### **SIZE**

Dogs: 25 kg (55 lb); bitches: 23 kg (50 lb).

### **FAULTS**

Any departure from the foregoing points should be considered a fault and the seriousness with which the fault should be regarded should be in exact proportion to its degree and its effect upon the health and welfare of the dog and on the dog's ability to perform its traditional work.

### **NOTE**

Male animals should have two apparently normal testicles fully descended into the scrotum.
